OBJECTIVE

Full Stack Developer with experience in modern web and backend technologies, including React, Next.js, Node.js, and TypeScript. Skilled in building scalable APIs, optimizing CI/CD pipelines, and integrating databases such as MongoDB. Recognized for delivering intuitive interfaces and innovative solutions across multiple projects. Seeks to apply technical expertise to drive results and support high-impact development teams.

PROFESSIONAL HISTORY

Trizy <i>Full Stack Developer</i>	Jul 2024 - Jan 2025 <i>Ponta Grossa, PR</i>
<ul style="list-style-type: none">Built monorepo applications using NX, enhancing code management and collaborationDeveloped applications within the React ecosystem (React, Next.js, JavaScript, TypeScript), improving user interface consistencyUtilized MongoDB as a database, ensuring efficient data storage and retrievalImplemented and optimized CI/CD pipelines with Azure DevOps, reducing deployment times and increasing release frequency	
Fusion S/A <i>Desenvolvedor full stack</i>	Apr 2022 - Jul 2024 <i>Recife, PE</i>
<ul style="list-style-type: none">Developed and maintained scalable and efficient APIs using Java and Node.js, enhancing system performance and reliabilityAutomated processes using CI/CD pipelines to optimize operations and reduce failures, improving workflow efficiencyImplemented security and code quality improvements through code reviews and Git, enhancing system integrity and reliabilityDeveloped intuitive and responsive interfaces using Express and Oracle, enhancing user experience and engagementProvided technical support and maintained applications using Azure DevOps, ensuring high-quality performance and reliabilityCreated modern and efficient interfaces using React.js, resulting in improved user experience and faster load timesDeveloped solutions using MongoDB and Node.js to address internal and external needs, enhancing system functionality and user satisfactionIntegrated existing systems using Oracle and Node.js, ensuring efficiency and scalability, which reduced downtime and improved performanceLed web projects within the team, contributing to innovation and modernization by implementing automated testing, which improved project quality and adherence to deadlines	
Accenture Brasil <i>IT Analyst</i>	Apr 2021 - Apr 2022 <i>Campina Grande, PB</i>
<ul style="list-style-type: none">Developed JavaScript vanilla scripts for telecom projects, enhancing system efficiency and performanceImplemented automated tests, improving software reliability and reducing manual testing timeIntegrated Oracle Database, ensuring seamless data flow and system integrationUpdated dependencies in Java applications and enhanced system security, ensuring up-to-date and secure software environments	
Grupo Vicoa Brasil <i>Desenvolvedor full stack</i>	Jun 2020 - Mar 2021 <i>Campina Grande, PB</i>
<ul style="list-style-type: none">Developed full stack solutions using Node.js, ReactJS, and TypeScript for Telecom and HR, enhancing system efficiency and user experienceIntegrated and consumed RESTful APIs to ensure efficient communication between systems, improving data exchange reliabilityMonitored databases to manage and control the company's inventory, ensuring accurate stock levels and reducing discrepancies	

ACADEMIC BACKGROUND

Descomplica: Faculdade Digital – João Pessoa/PB

Bachelor's degree, Computer Science

Apr 2024 - Dec 2028

João Pessoa - PB, Brazil

TECHNICAL SKILLS

- Languages:** JavaScript, TypeScript, Java
- Front-end:** React, React Native, Next.js, Vite, Remix
- Back-end:** Node.js, Express
- Databases:** MongoDB, Oracle, SQL
- Tools:** Git, Azure DevOps, NX, CI/CD, Git Actions, Sentry
- Testes:** Testes automatizados, revisão de código, Test Automation
- APIs:** RESTful APIs, integração de sistemas
- BEHAVIORAL COMPETENCIES:** Trabalho em equipe, comunicação clara, Atenção aos detalhes, revisão de código, Comprometimento com prazos, qualidade, Versatilidade para atuar em diferentes frentes (web, mobile, backend)

LANGUAGES

- Português (Nativo)
- Inglês (C1)
